Rotogravure Printing Machine (high Speed)

Jagannath Packaging

Jagannath Packaging

manufactures flexible packaging material using Rotogravure technology. Rotogravure printing is the best choice to print millions of impressions. The finished product is more attractive as it has many bright colors with high gloss and the images are clear as it has high color strength.

We offer a wide range of packaging materials such as

- Food Packaging materials,
- Agricultural Packaging materials
- Beverages Packaging

Their excellent strength, durability, resistance to moisture, impeccable finish and lightweight, make these packaging materials highly demanded.

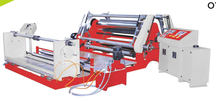
Food processing, chemical, beverages, pharmaceutical industries are some of the sectors where the offered materials are used for packaging purposes.

As per the sizes, thicknesses and designs, provided by the clients, the offered packaging products can be customized at our end. To manufacture these products we are equipped with latest technology that enables us to print, laminate, cut and slit easily and effectively.

Lamination / Coating Machine

Our Vision

to be one among the leaders of the packaging industry in India and to consistently grow our presence in the domestic and international markets.



Our Mission

to consistently supply flexible packaging solution and become No.1 in packing industry.

Drum Slitter Rewinder Machine (High Speed)

PACKAGING SOLUTIONS FOR VARIOUS APPLICATIONS

PRODUCTS	TYPE OF MATERIAL	DESCRIPTION
Snacks & Chips		
Chips, Wafers, Crackers, Popcorn, Extruded snacks, Processed Nuts, Chips, Namkeen	• BOPP/BOPP • BOPP/CPP • BOPP/EX.PE/MPET/PE • PET/PE/Alu Foil/PE	• Suitable for nitrogen flushing • Good moisture and oxygen barrier • Matt, Gloss, Metallic & see through combinations are available
